

# PROPERTY CROWDFUNDING

WCN Property Crowdfunding members contribute money in the savings account every month, which is then used as capital to attain income generating properties.

The focus of the Property Crowdfunding is to develop residential and commercial rental properties. The emphasis is on ownership and asset accrual, hence no selling of developed properties.

WCN have saved over half a million in its first 2 years of existence.

Property built is registered under a separate new company, to which members own a share. A R60000.00 contribution toward a R600000.00 investment property, earns a member 10% shareholding.

WCN is set to embark on its first property project, mid-2019, having already acquired the land for residential property development.

WCN's property vision goes beyond just township residential property development. The aim is to build and own malls, complexes, and estates across South Africa and Africa.

The WCN Property Crowdfunding is led by a team of individuals who have been in the property business for many years, with vast experience and invaluable insights.
